Aims and Scope

This international English-language journal publishes original research and review articles in structural geology and tectonics. All features and processes of deformation in rocks are considered, at any scale. Specific topics include natural structures such as folds, fractures and fabrics, structural associations in orogenic belts, strike-slip zones and extensional regimes, strain analysis, and theoretical and experimental modelling. Regional structural accounts should be of broad rather than local interest, or of a thematic nature. There is an express *Brevia* section for short notes, discussion/reply items, book reviews and a diary. The journal publishes occasional thematic or conference special issues.

Subscriptions

All subscription enquiries should be addressed to: The Subscriptions Fulfillment Manager, Subscriptions Dept., Pergamon Press plc, Headington Hill Hall, Oxford OX3 0BW.

Annual Subscription Rates: Annual Institutional Subscription Rate (1992): £270.00 (U.S.$430.00). Two-year Institutional Rate (1992/93): £513.00 (U.S.$817.00). Sterling prices are definitive. U.S. dollar prices are quoted for convenience only, and are subject to exchange rate fluctuation. Personal subscription rate for those whose library subscribes at the regular rate is available on request. Prices include postage and insurance and are subject to change without notice. Subscription rates for Japan are available on request.

Back Issues. Back issues of all previously published volumes, in both hard copy and on microform, are available direct from Pergamon Press offices.

Publishing and Advertising Offices. Headington Hill Hall, Oxford OX3 0BW, England (Oxford 794141). 395 Saw Mill River Road, Elmsford, NY 10523, U.S.A.

CONTENTS OF VOLUME 12

Number 1

1 Editorial

J. M. Dixon and R. Tirrul — 3 Centrifuge modelling of fold–thrust structures in a tripartite stratigraphic succession

M. A. Evans and W. M. Dunne — 21 Strain factorization and partitioning in the North Mountain thrust sheet, central Appalachians, U.S.A.

A. Yin and T. K. Kelty — 37 Development of normal faults during emplacement of a thrust sheet: an example from the Lewis allochthon, Glacier National Park, Montana (U.S.A.)

S. Wojtal and J. Pershing — 49 Paleostresses associated with faults of large offset

J. Hadizadeh, H. A. Babaie and A. Babaei — 63 Development of interlaced mylonites, cataclasites and breccias: example from the Towaliga fault, south central Appalachians

H. Stünitz — 71 Folding and shear deformation in quartzites, inferred from crystallographic preferred orientation and shape fabrics

R. C. Fletcher — 87 Three-dimensional folding of an embedded viscous layer in pure shear

Brevia

R. Kretz — 97 The dilation direction of intrusive sheets

C. W. Passchier — 101 The classification of dilatant flow types

D. Kirschner and C. Teyssier — 105 Quartz *c*-axis fabric differences between porphyroclasts and recrystallized grains

J.-P. Gratier, B. Guillier, A. Delorme and F. Odonne — 111 Restoration and balance of a folded and faulted surface by best-fitting of finite elements: principle and applications

B. Marshall — 117 Deformation and recrystallization microstructures in deformed ores from the CSA mine, N.S.W., Australia: Discussion

B. A. Brill — 119 Deformation and recrystallization microstructures in deformed ores from the CSA mine, N.S.W., Australia: Reply

121 Book Reviews

Number 2

Special Issue: Characteristics of Active Faults

v Preface

C. M. dePolo, D. G. Clark, D. B. Slemmons and A. R. Ramelli — 123 Historical surface faulting in the Basin and Range province, western North America: implications for fault segmentation

M. N. Machette, S. F. Personius, A. R. Nelson, D. P. Schwartz and W. R. Lund — 137 The Wasatch fault zone, Utah—segmentation and history of Holocene earthquakes

A. J. Crone and K. M. Haller — 151 Segmentation and the coseismic behavior of Basin and Range normal faults: examples from east-central Idaho and southwestern Montana, U.S.A.

P. Zhang, D. B. Slemmons and F. Mao — 165 Geometric pattern, rupture termination and fault segmentation of the Dixie Valley–Pleasant Valley active normal fault system, Nevada, U.S.A.

K. Berryman and S. Beanland — 177 Variation in fault behaviour in different tectonic provinces of New Zealand

I. S. Stewart and P. L. Hancock — 191 Scales of structural heterogeneity within neotectonic normal fault zones in the Aegean region

S. B. Pavlides and M. D. Tranos — 205 Structural characteristics of two strong earthquakes in the North Aegean: Ierissos (1932) and Agios Efstratios (1968)

R. S. Yeats and R. J. Lillie — 215 Contemporary tectonics of the Himalayan frontal fault system: folds, blind thrusts and the 1905 Kangra earthquake

H. Tsutsumi, A. Okada, T. Nakata, M. Ando and T. Tsukuda — 227 Timing and displacement of Holocene faulting on the Median Tectonic Line in central Shikoku, southwest Japan

T. Mogi, I. Katsura and S. Nishimura — 235 Magnetotelluric survey of an active fault system in the northern part of Kinki District, southwest Japan

Number 3

241 Editorial

K. G. Stewart and W. Alvarez — 243 Mobile-hinge kinking in layered rocks and models

T. E. Johnson — 261 Nomenclature and geometric classification of cleavage-transected folds

K. F. Mulchrone — 275 The interpretation of fold axial data from regions of polyphase folding

J. W. Mies — 281 Planar dispersion of folds in ductile shear zones and kinematic interpretation of fold-hinge girdles

B. Goscombe — 299 Intense non-coaxial shear and the development of mega-scale sheath folds in the Arunta Block, Central Australia

I. A. Abbasi and R. McElroy — 319 Thrust kinematics in the Kohat Plateau, Trans Indus Range, Pakistan

J. I. Soto — 329 Strain analysis method using the maximum frequency of unimodal deformed orientation distributions: applications to gneissic rocks

A. Fernandez and D. Laporte — 337 Significance of low symmetry fabrics in magmatic rocks

N. MANDAL and D. KHAN 349 Rotation, offset and separation of oblique-fracture (rhombic) boudins: theory and experiments under layer-normal compression

Brevia

K. H. FLEISCHMANN 357 Interaction between jointing and topography: a case study at Mt Ascutney, Vermont, U.S.A.

E. H. RUTTER and K. H. BRODIE 363 Lithosphere rheology—a note of caution

I International Newsletter 1: Spring 1991

Number 4

L. RATSCHBACHER, H.-R. WENK and M. SINTUBIN 369 Calcite textures: examples from nappes with strain-path partitioning

P. LABAUME, C. BERTY and PH. LAURENT 385 Syn-diagenetic evolution of shear structures in superficial nappes: an example from the Northern Apennines (NW Italy)

P. G. JORDAN 399 Development of asymmetric shale pull-aparts in evaporite shear zones

S. K. RAY 411 Significance of forelimb folds in the Shumar allochthon, Lesser Himalaya, eastern Bhutan

J.-P. BRUN, J.-F. BALLARD and C. LE CORRE 419 Identification of Ordovician block-tilting in the Hercynian fold belt of Central Brittany (France): field evidence and computer models

F. HROUDA and Š. KAHAN 431 The magnetic fabric relationship between sedimentary and basement nappes in the High Tatra Mountains, N. Slovakia

T. FORSLUND and A. GUDMUNDSSON 443 Crustal spreading due to dikes and faults in southwest Iceland

P. RICHARD 459 Experiments on faulting in a two-layer cover sequence overlying a reactivated basement fault with oblique-slip

P. R. BLUMENFELD and C. J. L. WILSON 471 Boundary migration and kinking in sheared naphthalene

485 Book Reviews

Number 5

T. R. CHARLTON, A. J. BARBER and S. T. BARKHAM 489 The structural evolution of the Timor collision complex, eastern Indonesia

N. CULSHAW 501 Post-collisional oblique convergence along the Thelon Tectonic Zone, north of the Bathurst Fault, NWT, Canada

R. J. VARGA 517 Modes of extension at oceanic spreading centers: evidence from the Solea graben, Troodos ophiolite, Cyprus

C. K. MAWER and P. F. WILLIAMS 539 Progressive folding and foliation development in a sheared, coticule-bearing phyllite

S. Mosher and A. W. Berryhill 557 Structural analysis of progressive deformation within complex transcurrent shear zone systems: southern Narragansett Basin, Rhode Island

H. A. Babaie, J. Hadizadeh, A. Babaei and A. M. Ghazi 579 Timing and temperature of cataclastic deformation along segments of the Towaliga fault zone, western Georgia, U.S.A.

A. F. Glazner and J. M. Bartley 587 Volume loss, fluid flow and state of strain in extensional mylonites from the central Mojave Desert, California

J. E. Olson and D. D. Pollard 595 The initiation and growth of en échelon veins

Brevia

E. H. Rutter and J. Hadizadeh 609 On the influence of porosity on the low-temperature brittle–ductile transition in siliciclastic rocks

615 Erratum

Number 6

J.-P. Burg 617 Syn-migmatization way-up criteria

H. Stel 625 Linear dilatation structures and syn-magmatic folding in granitoids

R. Nicholson 635 Vein morphology, host rock deformation and the origin of the fabrics of echelon mineral veins

I. S. Buick 643 Mylonite fabric development on Naxos, Greece

J. M. Garbutt and C. Teyssier 657 Prism $\langle c \rangle$ slip in the quartzites of the Oakhurst Mylonite Belt, California

D. A. Ferrill 667 Calcite twin widths and intensities as metamorphic indicators in natural low-temperature deformation of limestone

T. O. Wright and R. D. Dallmeyer 677 The age of cleavage development in the Ross orogen, northern Victoria Land, Antarctica: evidence from $^{40}Ar/^{39}Ar$ whole-rock slate ages

D. R. Gray and C. E. Willman 691 Thrust-related strain gradients and thrusting mechanisms in a chevron-folded sequence, southeastern Australia

H. Schandelmeier and A. Richter 711 Brittle shear deformation in Northern Kordofan, Sudan: late Carboniferous to Triassic reactivation of Precambrian fault systems

D. C. P. Peacock and D. J. Sanderson 721 Displacements, segment linkage and relay ramps in normal fault zones
